Portfolio Project

Mealshunter   Dec 2022 – Jan 2023

MealsHunter is a web application that provides a wide range of receipt food options from around the world. I utilized VueJs, Tailwind, Vite, and Vuex as the foundational technologies to build this project and consume public API from TheMealDB.com

- Created global state using Vuex and get data using axios.
- Designed and developed the front-end using Tailwind which resulted in a more responsive and user-friendly interface.
